

Campus Assistance Program

Listed below are resources available to employees, students, residents and faculty that can either provide substance abuse treatment or can assist individual in finding treatment for their substance use problem. This list is for information and educational purposes only and does not constitute endorsement of these programs.

LSUHSC Campus Assistance Program

The mission of the LSUHSC Campus Assistance Program (CAP) is to support the mental, emotional, and physical well-being of students, faculty, staff, and immediate family members to promote the overall health and effectiveness of the LSUHSC-NO community. The Campus Assistance Program is a free service provided by LSU Health Sciences Center at New Orleans to assist faculty, staff, residents, students and their immediate family members in resolving personal, academic or work-related problems. Faculty, staff or residents who are enrolled or employed with LSUHSC-NO programs in other cities are also eligible for CAP services.

Healthcare Professionals Foundation of Louisiana

As you know, physicians, physician assistants, podiatrists, medical psychologists, dentists, and dental hygienists (health care professionals) take care of others continuously. However, these health care providers also need assistance at times, and we want you to know that it is ok to ask for help. It is the primary role of the Healthcare Professionals' Foundation of Louisiana (HPFL) Physicians Health Program (PHP) to offer assistance to health care professionals who may be suffering from difficulties such as substance use issues, depression, anxiety, etc., in addition to a host of physical ailments and disruptive behavioral patterns. The HPFL PHP supports health care professionals who are in our program and advocates for them with hospitals, health plan networks, malpractice insurance carriers, licensure boards, etc. For more information:
